

ALLERGEN MATRIX & TABLES

We take allergies very seriously and we work hard to provide a wide choice to fit a range of dietary needs.

Our Allergen Matrix and Tables specify allergens present by dish and also identify potential allergen risks as a result of cross-contamination. Although we separate ingredients and clean down all work areas and equipment, the presence of allergenic ingredients in our kitchens means we cannot guarantee any of our dishes are free of those ingredients.

If you have any questions at all, please speak to a member of our team.

ALLERGEN MATRIX & TABLES:

AN INTRODUCTION

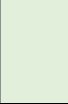

Hello, welcome to our allergy information guide which details all the dishes that we offer and is designed to help you make decisions on the food and drink that you order. Please let a member of our team know if you have an allergy or intolerance to any ingredient, even if you have dined with us before. Our Allergen Statement is present on our menus and in the Lounges so that our position on allergens is very clear.

ALLERGEN MATRIX

This is our Allergen Matrix which contains a list of all the dishes served in our Lounges. At the top we have listed the 14 declarable allergens for your reference. On the right-hand side of the matrix you will find the modification column which allows you to remove certain key allergens from your favourite dishes. Unfortunately, it is not always possible to remove key allergens, and to save you time we have compiled the Allergens Tables.

ALLERGEN TABLES

These are our Allergen Tables, which contain all the dishes that **cannot** be modified. This way, you will be able to identify straight away what you cannot eat. If you have any trouble finding what you are looking for, just ask the Manager on duty for some further guidance, and they will be more than happy to help!

	A RED dot means that the dish contains the specified allergenic ingredient. i.e. The ingredient is not included in the menu description but may be part of a sauce.
	A GREEN highlighted box means the dish can be modified to remove the specific allergenic ingredient. See Modification column and make sure to inform your waiter of your allergy(ies) when ordering at the till.
	A BLUE Asterisk means that the dish is fried in oil that may also be used to fry other dishes that contains the allergen
